eHMP r1.2 CiF Build Documentation

All Gradle build steps should be executed from the product/ folder.

The r1.2 SDK documentation is available at https://ehmp-r1-2-dit.vistacore.us/documentation/

ADK

The adk repository includes the Applet Development Kit (ADK), a Backbone.js/Marionette framework for writing eHMP applets.

- Build Steps: `gradle clean test grunt_deploy`
- Artifact Location: adk/product/production/build/adk.tgz
- Gradle version: 1.11
- ADK Documentation: ad/product/production/adk/README.html

RDK

The rdk repository includes the Resource Development Kit (RDK) and the node.js REST resources written with the RDK.

- Build Steps: `gradle clean test zipRDK`
- Artifact Location: rdk/product/build/rdk-x.x.x.zip
- Node version: v0.10.29
- Gradle version 1.11
- RDK Documentation: rdk/product/production/rdk/readme.md

eHMP-UI

The ehmp-ui repository includes the applets, layouts and screens developed using the ADK.

- Build Steps: `gradle clean test zipEhmpuiApp`
- Artifact Location: ehmp-ui/product/build/ehmp-ui-x.x.x.zip
- Grunt Version: v0.1.7
- Gradle Version: 1.11
- Ruby version: 1.9.3p194
- Gem versions: compass-0.12.6, sass-3.2.19

eHMP

The ehmp repository includes the eHMP synchronization process, VX Cache configuration and mock data services.

- Build Steps: `gradle clean test build`

- Artifact Location - JDS: ehmp/product/production/jds/jds/*.m
- Artifact Location - eHMP Sync: ehmp/product/production/vx-sync/build/vxsync-x.x.x.zip
- Artifact Location - Solr configuration: ehmp/product/production/vpr/build/vpr-x.x.x.tgz
- Artifact Location - Mock MVI: ehmp/product/production/MockMVI/build/MockMVI-x.x.x.war
- HMP KID Builds:
    - HMPEJK_US5647_1.KID
    - TIU_TEMP_1.KID
    - USR_TEMP_1.KID
    - HMPM_2-0.KID
    - HMP_2-0.KID
    - HMP_RRB-1.KID
    - HMP_HRUB_2.KID
    - HMP_HRUB_4-1.KID
- Gradle Version: 1.11
- Ruby version: 1.9.3p194
- Gem versions: compass-0.12.6, sass-3.2.19
